

Code	Description	Size	Colour
20118	Toptec Powder Coat Cleaner	4Lt	Clear
20119	Toptec Powder Coat Cleaner	20Lt	Clear

Description

Toptec Powder Coat Cleaner is especially formulated to clean and remove uncured adhesive and sealants from tools and surfaces. Toptec Powder Coat Cleaner is also formulated to ensure no damage or discolouration to pre-finished substrates such as powder coated aluminium. Due to the amount of pre-finished surfaces on the market we recommend a small trial to ensure compatibility on all surfaces.

Characteristics

- Excellent clean up
- Removes grease marks
- Minimal effect on gloss levels

Technical Data

Base:	Solvent
Vapour Pressure (mmHg @ 20°C):	<35
Specific Gravity (@15°C):	0.694 g/ml
Flash Point (°C):	-22
Solubility in Water:	Immiscible with water
Vapour Density (air=1):	4.8
Percent Volatiles:	100%

Application

Method: Wipe on, wipe off and surface will be clean.

Toptec recommends a preliminary compatibility tests prior to commencement of application.

Health and Safety Recommendation

- Apply the usual industrial hygiene
- Please refer to the SDS for more detailed information.

Remark

The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments.

If any clarification is required, please contact 0800 TOPTEC or email sales@toptec.co.nz
